Who are the contacts at NDEQ I would need to include for the RCRA portion. I thought it was Mike from your email below, but then saw Mike is an EPA employee. I am sending out an email this morning to the state to get a call set up.

Thank you,

Angela Acord

Monday afternoon is open. All day Thursday is open.

Mike, this is FYI regarding contact with Nebraska.

See the email below. Lets try to set something up for next week. I am in the office on Mondays and Thursday, so those days work best for me. What does your schedule look like for next week? If we can get a few days nailed down, we can reach out to NDEQ and see if any of those days work for a call.

Thank you,

Angela Acord

**Subject:** Enforcement Confidential - AltEn

Jamie,

I wanted to follow up with you with a little more information then I was able to provide on our last call. I circled back with Cynthia and Paul to confirm my discussions during the meeting and they agreed with my comments.

Industrial stormwater permit NER910444:

**Ex. 5 DP / Ex. 7(A)**

Waters proximity is also a factor when we look at a facility under stormwater. I took a closer look at the water near the site today. There are 2 different tributaries at the site. One to the NE of the site is Johnson Creek an intermittent creek that flows ~ 3 miles until it reaches Clear Creek a perennial. There is another trib that comes off the site and flow SE its an unnamed intermittent trib the flows ~ 7.3 miles to Clear Creek a perennial.

Industrial Wastewater permit NE0137636:

# Ex. 5 Deliberative Process (DP)

Thank you,

ANGELA ACORD M.S.
